41zero42 è una storia giovane, aperta al futuro. E' un collettivo italiano di professionalità, che insegue il concetto di bello basato sull'eccellenza delle performances, attenta nel cercare un equilibrio tra ricerca, innovazione, tendenze e mercato. Diretta da un team di giovani manager che si muove a livello internazionale per affrontare nuove sfide e possibilità.

Le idee e l'approccio sono liberi dalle logiche passate che hanno sin qui orientato le collezioni ceramiche.

Negli ultimi anni il mondo ceramico si è evoluto e trasformato.

Ricerca e tecnologia hanno favorito una nuova dimensione alle piastrelle, prima ignorate dai progettisti e considerate solamente quale alternativa economica dei prodotti nobili, sono oggi considerate in molti casi, una opzione primaria da valutare nella offerta tra legni, pietre, malte e altri prodotti da pavimentazione e rivestimento.

La fusione tra: tecnologia, resa estetica, performances, praticità di utilizzo, ricerca, innovazione e made in italy sono la mission di **41zero42**.

41zero42 is a young project open to the future; an Italian team of professionals that focuses on the concept of beauty based on the excellence of performances, bearing in mind an even balance between research, innovation, trends and market demands. The enterprise is directed by a team of young managers who work internationally to face new challenges and potentials. The ideas and the approach are free from past logics that have conditioned the ceramic tile.

The world of ceramic tiles has evolved and changed over recent years. Research and technology have renewed tiles, which in the past were ignored by designers and were considered just an economic alternative to more noble products, but which are now considered a primary option in many cases, to be taken into consideration among the offers of wood, stone and mortar and other floor and tile products.

The merging of technology, appearance, performance, practical use, research, innovation and "made in Italy" is the mission of **41zero42**.

Questa è la storia di un incontro. Una storia che parla di diversità e di opposti.

Il Marmo, fiero, prezioso, incontaminato, elegante e puro.

La Terra, rude, povera e disomogenea, segnata dal tempo e dalle persone, ma che attraverso questo suo mutare acquisisce quel grado di equilibrio e maturità che la contraddistingue.

Da sempre due tipologie materiche ben distinte, associate a mondi diversi e visioni diametralmente opposte.

41zero42, affascinata dai contrasti e dalle contraddizioni, ha voluto approfondire il tema degli opposti: ricco/povero, elegante/trasandato, piccolo/grande, convenzionale/inconsueto.

Siamo partiti da due mondi lontani, per arrivare a costruire un'unica e comune realtà, spinti dalla forte consapevolezza che solo analizzando il diverso si può arrivare a capire e comprendere meglio se stessi e il mondo circostante.

Due Materie: le Terre in quattro colorazioni differenti (Avorio, Grigio, Fumo e Oliva) e l'intramontabile eleganza del Marmo in bianco e in nero, con venature decise su una superficie purissima. Proposte, per ogni materia/colore, da un ricco programma di tagli, quali: 60x60, 30x60, 20x20, 7,5x60, esagono, lisca di pesce francese, provenzale; tutto questo per dare una vasta gamma interpretativa di ogni singolo materiale.

Due entità, due elementi che possono vivere soli ma convivere altrettanto, contaminandosi e tenendosi per mano come 2 compagni che hanno trovato un equilibrio vincente.

This is the story of an encounter. A story that tells of diversities and opposites.

Bold, precious, uncontaminated, elegant and pure marble.

Coarse, poor, irregular earth marked by time and man, this allows it to acquire its balance and sophistication that makes it unique. Two distinct worlds that have always been distinct and opposite visions.

Fascinated by contrasts and by contradictions, 41zero42 has developed the theme of "opposites": rich/poor, elegant/shabby and conventional/unusual.

We started from two distant worlds to finally build one common reality, driven by a strong awareness that only analyzing differences can help you understand and comprehend ourselves and the world that surrounds us.

Two materials: Earth, in four different colours (Ivory, Grey, Smoke and Olive) and the timeless elegance of Marble, in white and black, with bold veins on an absolutely pure surface. Tiles for every material/colour with a rich range of sizes such as: 60x60, 30x60, 20x20, 7,5x60, hexagon, French fishbone and Provence; all this to give an extensive range of interpretation to each and individual material.

Two entities, two elements, that can live singularly or together, contaminating and holding hands just like two companions who have found a winning balance.
